Beware of puss caterpillars, which are cute but venomous, ~~agb~~nV

sting can last a couple of days and can include nausea. If the reaction does last a days, a doctor needs to be called.

Campbell Jaughn: Now is the time to start preparing your lawns for cooler weather

The reason I decided to write about these stinging caterpillars is one: My poor 15-y buddy got a nasty sting from one. And two: I saw a picture of a man on a gardening \
